EAST TEXAS

SHORTHORN

ASSOCIATION

The Lone Star Shorthorn Association commends the East Texas Shorthorn Association for re-establishing an annual sale which is being held in Tyler, Texas on Saturday, February 1, 1964.

The almost 70 entries indicate the interest in the potential Shorthorn market which exists in the State.

Our organization is most pleased to see various sections of the State program sales events. Best wishes for a successful sale.

Sincerely yours,

Russell Cantwell

This bull is out of a top young brood cow. His grandmother was the first prize yearling heifer in the great Chicago International, reserve champion, and she and another heifer were the first prize pair of females. His grandmother cost \$3,800.00 as a two-year-old. His sire, Louada Lochinvar, is, I feel, one of America's top Shorthorn breeding bulls today; and his mother was sired by the \$26,000.00 Imported Craggleton Rainey.

IRISH OAKS FASCINATION 11th x -- If you want a real good top Polled herd bull, here's your chance to buy one. If I needed a young replacement bull at this time, he wouldn't be for sale. We have used him on a few of our better cows. He is tops in Polled breeding, lots of weight for age, long body, deep red color, good legs, straight back and wonderful conformation. Also, his dam is a large, deep red cow with smoothness all over. I don't think you can go wrong on this bull.

FROM The Sale Manager -----

Working with the East Texas Shorthorn Association sale committee in the preparation of this "Texas Special" sale has been a most pleasant task. They are a group that has real enthusiasm for the Shorthorn and Polled Shorthorn business. They have inspired a grand group of consignors to offer their best young bulls and females, providing a grand buying opportunity for anyone seeking to increase the size and quality of his own herd. This group of breeders have big plans for the future. Why not join them now and help yourself also.

I certainly hope that a lot of our Shorthorn friends will plan on being with us at Tyler on Saturday, February 1st. For a couple of real important "Shorthorn Days" in the Southwest, attend the Ft. Worth Shorthorn Show on Thursday and be in Tyler on Saturday.

Why Buy Shorthorn Bulls?

Best for Crossing . . .

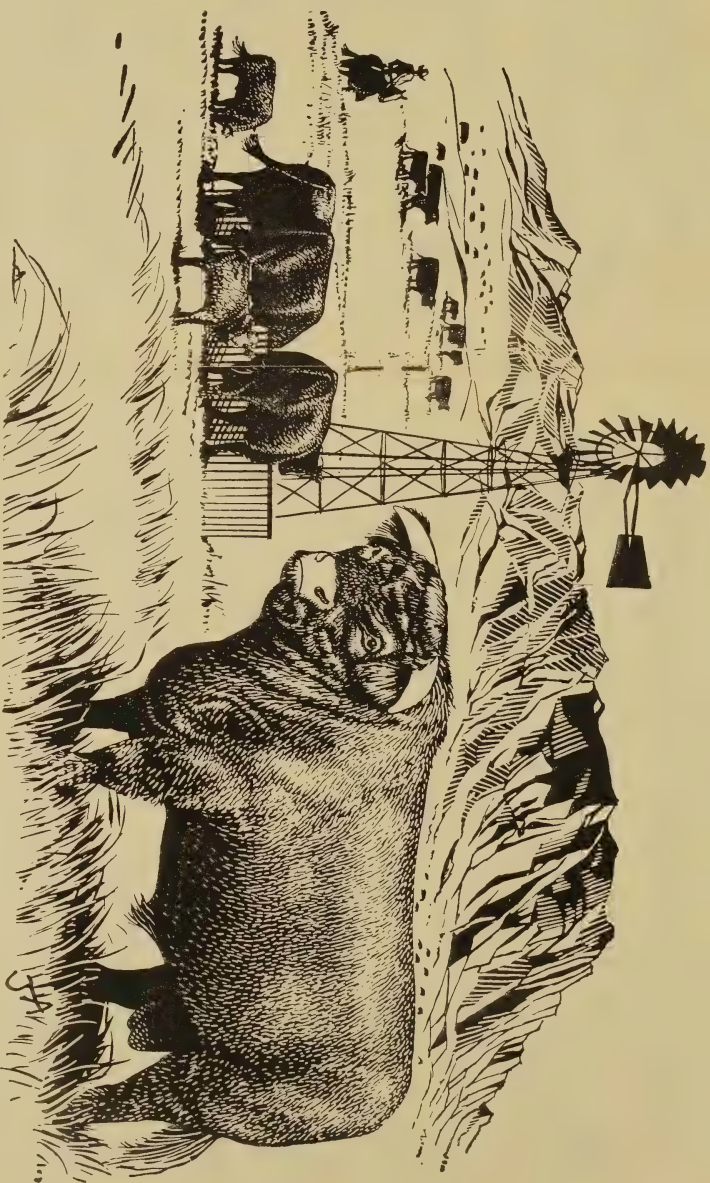

Louisiana State University tests show Shorthorn crosses with Angus and Herefords were superior to the Angus-Hereford cross in weaning weight, rate of gain, and carcass grade.

More Weaning Weight . . .

A summary of 32 feeder sales in Virginia in 1962 revealed that Shorthorn steer calves averaged 12 lbs. per head more than the next closest breed at weaning age, and 18 lbs. per head more than the other main breed.

Top Carcasses . . .

A 210-head study by the Quebec Department of Agriculture proved that Shorthorns mature earlier and produce a higher carcass grade than blacks or whitefaces.

More Valuable Calf Crops . . .

The Virginia Feeder Sales also prove that Shorthorn calves bring more dollars at sale time. In 1960 the Shorthorn advantage was \$10.67 per calf. In 1961 the Shorthorn advantage was \$6.00 per calf.

Superior Gaining Ability . . .

Shorthorns have topped the Kentucky Performance Tests for three straight years. Their most significant advantage was in average daily gains. Shorthorns also scored the highest average gains for eight straight years in the large Front Royal, Virginia, Performance Tests.

Better Quality . . .

The 1962 Virginia Feeder Sale summary showed that 49 per cent of the Shorthorn calves sold graded fancy and choice as compared to only 35 per cent of all calves sold. In the Kentucky Performance Tests for 1959, 1960 and 1961, Shorthorns had the highest type score of all breeds.

STANDARD GUARANTEE

RECOMMENDED BY

**AMERICAN SHORTHORN
BREEDERS ASSOCIATION**

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

SHOW CLASSIFICATION
